PLANNING AND ZONING

SPECIAL MEETING

AUGUST 19, 2010

The committee met at the home of Mr. and Mrs. Downing, who reside at 504 Sioux Drive, at 5:00p.m. on August 19, 2010.

The special meeting was held in order to address a fence repair issue. Their dogs were being kept in the house while the Downings were at work. It created an issue with cleanliness.

Members present were Barb Griffith, John Howey, Arnold Leek, Mark Hothan and Sandi Goetz.

The existing mesh fence will be replaced with "hog wire". Mesh fencing is usually 1"x2" cage wire. Hog wire is a type of fencing that usually has 4" squares or 6" square. They decided to use material that they had on hand. Hog wire is stronger and it should keep the dogs in the fenced area of the yard. Mark Hothan made the motion to accept the fence replacement plans and Arnold Leek seconded the motion.

AYES: ARNOLD LEEK

I had spoken with the Mayor earlier and he made the executive decision to allow Ray and Deb Downing permission to begin immediately on their fence replacement.

Mr. and Mrs. Downing asked if they could address the issue of an adjoining yard. The neighboring back yard is overgrown, unkempt and has poison ivy. The committee granted permission for me to address the adjoining yard issue at the September City Council. I assured Mr. and Mrs. Downing that I would present their concerns and pictures at the September City Council meeting.

The meeting was adjourned at 5:30.

A special Thank you to the committee for responding to the request of the special meeting

on such short notice.

Submitted by Sandi Goetz ☺
